

RNA@dkfz.

Program

Meeting: 13.04.2016, 13-15.30h

DKFZ Communication Center K1

RNA@dkfz. PROGRAM

13:00 – 14:40

Welcome Sven Diederichs

- | | | | |
|---|-----------------------|---|------|
| 1 | Nevcin Sentürk | Genome-wide isolation and functional characterization of triplex-forming lncRNAs | A030 |
| 2 | Anke Heit | In silico identification of target genes for bovine foamy virus microRNAs | W180 |
| 3 | Stefan Wilkening | Regulation of mRNA decay in healthy and malignant human T-cells by alternative poly(A) site usage | G803 |
| 4 | Maiwen Caudron-Herger | Alu element-containing RNAs maintain nucleolar structure and function | B150 |
| 5 | Francesca Tuorto | Influence of Queuosine and 5-methylcytosine tRNA modifications on protein translation in mammals | A130 |

14:40

Coffee
