Deciphering resistance mechanisms in glioblastoma:
a journey towards innovative technology development

Thu, 06 Mar

DR. ANNARITA PATRIZI (FSP A)

Understanding choroid plexus tumors: rare and paediatric brain tumors

Thu, 03 Apr

PROF. DR. CONNIE HOE (FSP C)

Policy research in cancer prevention

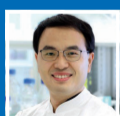

Mon, 12 May

PROF. DR. CHRISTOPH PLASS (FSP B)

Epigenetic alterations in AML and non-genetic therapy resistance

Mon, 23 Jun

DR. CHONG SUN (FSP D)

Decoding the requirement for effective antitumor T cell response

Mon, 28 Jul

PROF. DR. CHRISTOF NIEHRS (FSP A)

R-spondins: from left-right embryonic patterning to anticancer scaffold

Wed, 24 Sep

PROF. DR. HEINZ-PETER SCHLEMMER (FSP E)

Fighting prostate cancer: imaging research from early steps to clinical guidelines

Thu, 23 Oct

PROF. DR. STEFANIE SPEIDEL, NCT DD (FSP E)

Beyond the scalpel: empowering surgeons with AI-powered robotics

Wed, 12 Nov

PROF. DR. STEFAN FRÖHLING NCT HD (FSP B)

Understanding and targeting rare cancers

Tue, 02 Dec

PROF. DR. DR. SONJA LOGES (FSP A)

Dissecting sex-differences in responses to immune checkpoint blockade

Jointly organized by the
DKFZ Research Programs (FSPs)

Everyone is welcome,
no registration necessary!

Four 5-minute highlight
publications will be presented
per event by DKFZ junior
scientists

The event is followed by
a networking hour with
snacks & drinks
